

Varad Patil

Sangli • 9356610789 • varadapatil123@gmail.com • linkedin.com/in/varad-patil-web-dev • varadportfolio.web.app

Passionate Web Developer with hands-on experience building scalable React.js and Next.js applications. Skilled in crafting high-performance, responsive UIs using Tailwind CSS and Framer Motion. Successfully completed a web development internship at Altair Engineering, where I contributed to high-impact front-end optimization and AWS integration. Currently pursuing M.Tech at IIT Kanpur, with a strong focus on full-stack development and building performant, user-centric web solutions.

WORK EXPERIENCE

Altair Engineering

Bangalore • 01/2025 - 07/2025

Software Development Intern • Internship

- Built **interactive dashboards** and scalable frontend architectures using React.js and Node.js for simulation workflow management.
- Reduced manual workflows by **40%** through Python scripting, API integrations, and automation of simulation processes.
- Collaborated with teams to integrate **AWS services (S3, Athena, EC2)** and optimize frontend performance by 30%.
- Developed **custom MERN-based portals** for clients (CEAT, MRF, Mahindra) to upload data, schedule HPC simulations, and retrieve results.

Bubble Byte Ventures Pvt Ltd

Sangli • 09/2022 - 08/2023

Web Developer

- Delivered **3+ client websites** with tailored functionalities, achieving a 100% satisfaction rate.
- Reduced website load time by **30%** through optimization techniques.
- Collaborated with cross-functional teams to implement responsive and dynamic designs.

EDUCATION

Master of Technology in AI for Sustainability

Indian Institute of Technology Kanpur

07/2025 - Present

Bachelor of Technology in Computer Engineering

Rajarambapu Institute of Technology, Rajaramnagar, SAKHARALE • GPA: 9.70

12/2021 - 06/2025

PROJECTS

Simulation Workflow Automation Platform

- Tech Stack:** MERN (MongoDB, Express.js, React.js, Node.js), Python, AWS S3, HPC Integration
- Developed a web platform for enterprise clients to **upload data, configure simulation parameters, and run jobs on HPC clusters**.
- Automated job scheduling, data preprocessing, and result retrieval, improving simulation turnaround time by **up to 50%**.
- Implemented **secure authentication** and role-based access control for multi-user enterprise environments.

Full Stack E-commerce Platform

- Tech Stack:** React.js, Tailwind CSS, MongoDB, Stripe
- Built a user-friendly e-commerce platform with authentication, product management, and payment processing.
- Developed a responsive interface and integrated Stripe for seamless transactions.

BeAesthetic Website (Freelance Project)

- Tech Stack:** React.js, Tailwind CSS, RazorPay, Framer Motion
- Designed an interactive client website with a payment gateway and animations.
- Integrated payment systems and optimized the UI for client branding

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS

Backend and DB: Node.js, MongoDB, Express.js, RESTful APIs, Prisma
Tools: Git, Redux, NPM, Framer Motion

CERTIFICATIONS

Generative AI with Large Language Models	07/2024
DeepLearning.AI	
Programming Foundations with JavaScript, HTML and CSS	06/2020
Duke University Coursera	

VOLUNTEERING & LEADERSHIP

Google Developer Groups, RIT	08/2024 - Present
Community Lead	Sangli, Maharashtra
- Led a team of 45 students, organizing 5+ technical workshops, including hands-on sessions in React.js and Next.js. - Mentored students in coding best practices, guiding 20+ members to enhance their web development skills. - Increased technical engagement in the community by 40% through strategic event planning and collaboration.
